

AI MANAGEMENT / FRACTIONAL ENGAGEMENT

Your fractional AI partner.

Make better AI decisions, with a partner to help put them to work.

For business owners who want a practical plan and help following through. Part of AI Management, connected to Discovery and Implementation as needed.

01

Choose the next improvement

A prioritized roadmap with a clear owner and a way to measure progress.

02

Coordinate the work

Support through the agreed scope. New builds are itemized through AI Implementation.

03

Keep improving

Review results and help your team use the system. Cadence and coverage are defined in your agreement.

Where could we start?

Med spas: inquiry response, consultation scheduling, and staff handoffs. Clinical questions stay with qualified staff.

Service businesses: estimate follow-up, intake, and task ownership.

Illustrative examples. Feasibility and scope are confirmed before a build.

Custom scope and pricing. Advisory, implementation, management, and software or usage fees are listed separately. Existing coverage is reviewed to avoid duplicate charges. Marketing executive leadership and campaign production require a separate scope.
